Maximum Marks	4 Marks

Empathy Map

Create an empathy map to understand farmers from four perspectives—what they Say, Think, Do, and Feel - regarding crop selection and agricultural decision-making.

SAYS • Which crop is best for my soil? • How can I increase my crop yield? • Can I trust this recommendation?	THINKS • Soil and weather affect crops. • I need accurate guidance. • Wrong choices cause losses.
DOES • Tests soil. • Enters data into OptiCrop. • Follows the recommendation.	FEELS • Confused initially. • Hopeful for better yield. • Confident after prediction.

Persona: PERSONA NAME(Farmer)

Customer / User Type: Agricultural User
